

Rain Garden Design Workshop

The workshop will include:

- Stormwater runoff and low impact development
- Rain garden design considerations including location, plant types, and sizing
- An opportunity to develop a rain garden design with a team

What is a Rain Garden?

Nature's Water Filter: Rain gardens are shallow landscaped depressions that capture, clean and absorb stormwater runoff from roofs, parking lots and roads.

Workshops (choose one):

April 4, 2018, **Brookings** – Cow-Calf Education and Research Facility, 2901 Western Ave.

April 17, 2018, **Sioux Falls** – Regional Extension Center, 2001 E. Eighth St.

April 24, 2018, **Watertown** – Regional Extension Center, 1910 W. Kemp Ave.

9:00 am to 3:30 pm each workshop

Cost:

\$15.00 per person (educational materials and a working lunch will be included in the cost of the workshop)

Limited space for each workshop, registration is required.
